

THE DALEBROOK
REUSABLE COLLECTION

Dalebrook Supplies is a world leader in the design and manufacture of melamine display and tableware. Today, we're proud to extend our commitment to sustainability through a full range of reusable catering solutions. These products help operators reduce single-use waste, delivering long-term cost efficiency; all without compromising on style or performance.

TALON DRINKWARE	22

Single-use packaging is expensive and results in large amount of waste.

Cardboard or plastic take away boxes do not keep the food warm.

Large storage space is needed to store single-use packaging.

Single-use boxes have a high cost due to transportation

Reusable options cuts down the cost of waste management, transportation, packaging.

Melamine is the perfect material for food use as it has a highly thermal insulation property.

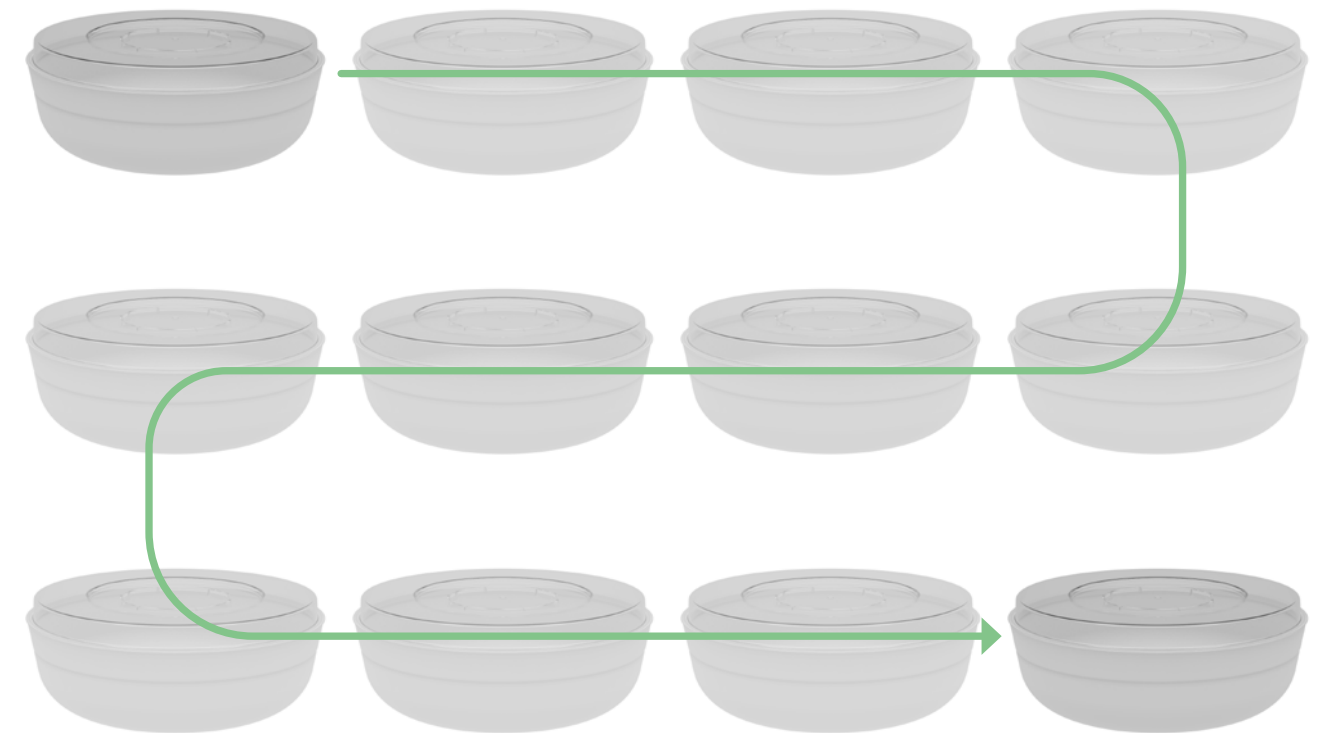

Stackable with or without a lid and saves storage space.

Fewer deliveries: With Dalebrook in circulation, you no longer require constant deliveries of disposable stock. Helping reduce pollution.

Choose to Reuse

According to government estimates, England uses 1.1 billion single-use plates every year.

In the UK, it's estimated that consumers who purchase takeaway for lunch generate nearly 11 billion tonnes of packaging waste annually.

Pudding Pot Square Style Pot

SMALL POTS. BIG IMPACT.

Dalebrook's small pots are a small change that makes a big impact. Designed for education and catering environments, they turn desserts, yoghurts, and fruit pots into something brighter, safer, and more sustainable.

Our Pudding Pot is made from crystal-clear SAN plastic, these pots deliver glass-like presentation without the risk of breakage. Their durable build withstands hundreds of wash cycles, helping caterers cut waste and control costs.

Can withstand
100+
commercial
wash cycles

Dishwasher safe
supports repeated use

Lifetime cost per use drops by
70% vs disposable

Hu

HUMAN BY DESIGN

Hu puts people first. It feels like tableware, not throwaway packaging; solid and reassuring. Guided by three principles—Human, Hungry, Humble—Hu turns everyday meals into better experiences while quietly replacing single-use with something genuinely lasting.

FUNCTION

Built for the pace of real service, Hu stacks and nests cleanly, opens and closes with intuitive tabs, and holds up to repeated washing. Modular footprints and insertable sauce pots streamline prep; optional venting supports food quality on the move.

DISHWASHER-SAFE
Built for repeated cycles

STACK & NEST
Efficient back-of-house storage

LIDS
Retain freshness and portability

BUILT TO LAST
Reuse again and again and again

Focus on Dip Pot and Lid

- Easy to add sauces to salad and breakfast pots.
- Can attach to any lid, adding that extra something to a dish when you want it.
- The flat lid design maximises food visibility
- Lid seals meals maintaining fresh food for longer
- The lid reduce overall food waste and the use of clingfilm.

Hive

SMART BY NATURE

Hive takes its inspiration from one of nature's most efficient systems.

Just as bees work together in perfect rhythm, Hive is built to move through modern catering with precision and purpose. It's a modular, repeatable system that keeps operations flowing smoothly from service to collection and back again.

FUNCTION

Made from germ-resistant melamine with reusable lids, Hive is lightweight, stackable, and dishwasher-ready. It's designed for quick-turn lunch counters, keeping queues short, food fresher, and waste minimal. When service ends, each container returns to the hive and is washed, restocked, and ready to go again.
